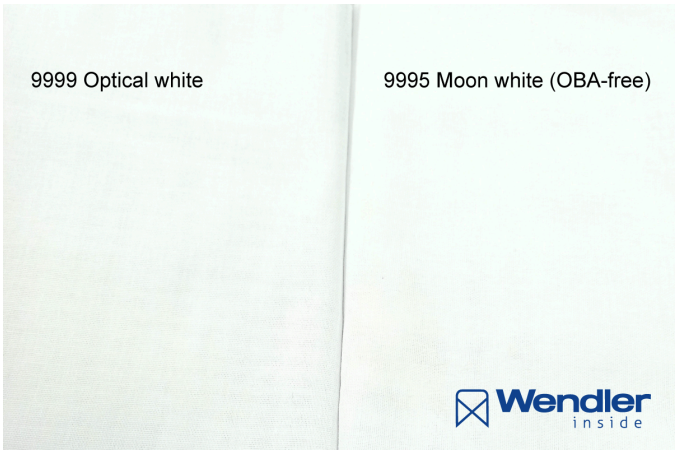
Moon White / 9995

BRIGHT WHITE. WITHOUT OPTICAL BRIGHTENERS.

Our new OBA-free white shade for apparel interlinings



Developed in response to customer demand, to help brands and manufacturers meet evolving global requirements.

Brands are raising their chemical management standards, and demand for components without optical brighteners is rising with them.
Moon White / 9995 answers that need with a bright white appearance and no intentionally added OBAs.

Why Moon White / 9995 ?

- No intentionally added optical brighteners (OBAs)
- Brightness comparable to Optical White / 9999 under light sources without UV content
- Supports RSL- and MRSL-driven programs
- Ideal for sensitive and highly specified applications, such as childrenswear
- Available for selected cotton constructions
- OBA-free alternatives also available in shades similar to Broken White / 9998 and Dull White / 9991/9993
